PROFILE

A Full-Stack Developer with a Bachelor of Science with Honours in Computer Science, skilled in building and shipping complete web applications end-to-end — from responsive React front ends to Node.js/Django REST APIs and relational databases (MySQL, PostgreSQL/Supabase). Experienced across the full development lifecycle, including authentication systems, database migrations, and admin/dashboard interfaces, with strong analytical thinking, problem-solving, and communication skills built through hands-on academic and professional projects.

EDUCATION

Bachelor of Science with Honours in Computer Science — *University of Rwanda, Nyarugenge Campus, Kigali, Rwanda*
2019 – 2024

Academic Internship – IT Support & Systems — *Ngororero District HQ*
Feb 2023 – May 2023

- Provided technical support to staff.
- Assisted in system maintenance and network setup.
- Supported troubleshooting of computers and printers.

Rwanda Advanced Certificate of Education (A2) — *Mathematics, Economics, Computer Science* — *MUHORORO Secondary School (MSS)*
2016 – 2018

Ordinary Level — *G.S Rambura (G)*
2013 – 2015

EMPLOYMENT

CAMIS Helpdesk Intern (Full-Time) — *National Examination and School Inspection Authority (NESA)*
March 2026 – Present

- Offering day-to-day support to CAMIS users.

Software Developer (Part-Time) — *Shaka Rwanda*
July 2025 – January 2026

- Designed and developed MyShop, a full-stack e-commerce platform using React on the frontend and Node.js with a PostgreSQL (Supabase) backend.
- Implemented multi-role authentication (Google OAuth, OTP, and email/password) alongside cart, wishlist, and order management features.
- Built admin and courier dashboards, including an enhanced order-management view with detailed order modals showing customer info, product tables, and action buttons.
- Refined UI/UX across the platform — rebuilt the Navbar with a responsive hamburger-drawer pattern, made core admin views fully responsive across screen sizes, and integrated custom animated UI components.
- Executed a full database migration (MySQL → PostgreSQL → Supabase), resolving connection pooling, query syntax conversion, and data import issues along the way.

Digital Health Ambassador (Part-Time) — *SFH Rwanda*
October 2025 – December 2025

- Supported digital awareness and community engagement programs, serving as master trainer of the E-Buzima system.
- Promoted digital literacy and online safety.

Computer Science Tutor (Full-Time) — *Action College*
February 2025 – July 2025

- Taught basic computer science concepts and practical skills, including the basics of C++, Java, and HTML.
- Helped students improve academic performance.

Frontend Developer (Part-Time) — AZUL Tech

March 2024 – February 2025

- Maintained and updated the UI of an internal admin dashboard, ensuring accurate display of records and reports.
- Implemented UI fixes and improvements to streamline day-to-day dashboard workflows for internal users.
- Built and updated dashboard components using HTML/CSS/JavaScript / React, improving usability and layout consistency.
- Collaborated with the team to identify and resolve UI bugs, improving data accuracy and reliability across the dashboard.

CERTIFICATIONS & DEVELOPMENT

Driving License: Category B (May 2024), Category A (August 2023)

Currently Learning: Modern Full-Stack Development (React.js, Node.js, Express, MySQL)

Declaration: I, Desire Mugisha, hereby declare that the information given above is accurate and true to the best of my knowledge.
