PROFESSIONAL SUMMARY

Motivated Computer Science graduate with hands-on full-stack development experience. Built production-level web applications using React.js, Node.js, and MySQL. Skilled in role-based authentication, responsive UI design, and REST API development. Strong communicator with a team-first approach, keen attention to detail, and a drive to keep learning and delivering quality software.

WORK EXPERIENCE

CAMIS Support Intern (Full-Time)

National Examination & School Inspection Authority (NESA) Mar 2026 – Present

- Providing day-to-day technical support to CAMIS system users.

Software Developer (Part-Time)

Shaka Rwanda Nov 2025 – Jan 2026

- Built MyShop, a full-stack e-commerce platform (React.js + Node.js + MySQL) with product management, cart, wishlist, and order tracking.
- Implemented role-based access control for admins, customers, and couriers — including OTP verification and Google OAuth.
- Optimised UX via responsive design, React Hooks, and secure session handling with LocalStorage & SessionStorage.

Digital Health Ambassador (Part-Time)

SFH Rwanda Oct 2025 – Dec 2025

- Supported digital awareness programs on the e-Buzima health system.
- Promoted digital literacy and online safety in communities.

Enumerator (Full-Time)

Bodhi Global Analysis Ltd Feb 2025 – Oct 2025

- Conducted household, individual, and Key Informant Interviews using digital tools (Kobo Collect, tablets).
- Facilitated Focus Group Discussions and ensured informed consent procedures.

Data Entry Clerk (Part-Time)

AZUL Tech Mar 2024 – Feb 2025

- Entered and managed data with high accuracy; maintained digital records and reports.
